Draft Drive Unit Up	16½"	(42 cm)
Draft Drive Unit Down	31½"	(80 cm)
Fuel Capacity	34 gal	(128 L)
Maximum Capacity	1,275 lbs	(578 kg)
Approximate Weight with 4.3L MerCruiser®	2,750 lbs	(1,247 kg)

## WHAT'S UNIQUE

**SSV® Hull** – Quick planing and very stable at top speed. Also holds plane at low speeds, which is good for all watersports.

**Double Truss Hull Construction** – Combination of the SSV Hull bonded together with our one-piece composite stringer system for a quiet and stable ride.

**Quick and easy conversion from ski boat to fishing boat and back** – can do in the middle of the lake.

**Storage for all ski/fish components** – so nothing gets left behind at the docks.

**Glastron's SSV® Hull draws as little as 16" with drive up** – so you can get into some tight spaces and catch the fish.

# GT 205 SKI/FISH
